

Dear All

Thank you for the many fine tributes and expressions of good-will posted on the site or in emails to us with regards to Lawson Bracewell's death.

. Lawson's passing was quick and due to heart failure. He died here at Christ College and medical intervention (Doctor/para medics) failed to revive him. At 11.07 am on Tuesday 15<sup>th</sup> July, shortly after his 71st birthday his transition took place.

Julia (my wife and fellow faculty member) and I have recently completed a five year course of study and teaching together with Lawson here at this school. This year we (all three) started a teaching programme with one student who is returning for further study. Prior to our arrival here Julia and I completed a Masters Degree in Esoteric Psychology in Australia. I (Orest) am a Board Member and we will be having a full board meeting shortly, but with Leonie's approval I am presently holding Lawson's baton.

Lawson established his vision here at Akaroa by founding Christ College of Trans-Himalayan Wisdom and we with your help are dedicated to continue this work.

If you truly respect Lawson's vision this is how you can further his legacy:

1. Advertise our teaching and healing school and its internet courses.
2. Support us financially as a friend of Christ College. One of my formulating ideas is the establishment of a Lawson Bracewell Student Endowment Fund. More on this proposal will be posted later.

3. Consider studying here and interacting with our community.

Lawson donated his body to Science and there will be a memorial service with his ashes here at Akaroa in one year's time.

I am formulating a small memorial service to be conducted soon. This will be posted to all in the very near future so that all can participate.

With you all

In light, love and spirit

Orest and Julia
